All plans created by Mosaiq LLC. "Mosaiq" are made exclusively for design reference only (Cal. Bus. & Prof. Code §5537). All site plans created by Mosaiq do not involve the determination of any property line, and as such do not constitute land surveying (Cal. Bus. & Prof. Code §§8726–8727). In addition, Mosaiq services and plans do not constitute civil engineering (Cal. Bus. & Prof. Code §§6702–6704), and thus should not be used for any studies or activities defined as civil engineering (Cal. Bus. & Prof. Code §6731). All floor plans created by Mosaiq are based on field measurements and existing site conditions and should not be considered a substitute for the services of a licensed structural engineer or licensed architect. Mosaiq makes every reasonable effort to ensure the accuracy of the information found in our plans. However, every As-Built drawing inherently contains errors to some degree. It is the duty of the architect, contractor, and/or the owner of the property, and not the duty of the property owner, to determine the suitability of the As-Built plans prior to construction. Measurements should be field confirmed before commencing construction. In the event that an error is found on a plan, Mosaiq's liability is limited to the amount of the fee paid to Mosaiq.
